

Shadow 3kW and 4kW Industrial Heater Data Sheet

Impressive Heat. Fast.

The Shadow 3kW Industrial Heater excels at taking no time at all to produce truly impressive amounts of heat and warm up people and objects within its coverage area, an important factor when dealing with large open spaces.

More Power, Less Waste.

The short-wave infrared our heaters operate, cuts through airflow to directly target the surrounding objects and people. This is different to gas heaters, where the heat will rise and result in much of the heat being wasted.

Flexible, Stylish Design.

The Shadow 4kW offers a flexible design that allows it to be mounted almost anywhere, so you can maximise its heat output and ensure it is running to its full potential. This infrared heater has been operated in a number of different settings, including indoor sports venues, churches, large factories, zoos, shopping malls and many more.

Voltage (V)	380 - 415V
Weight (Kg)	8
Width (cm)	25.5
Height (cm)	11
Depth (cm)	85.7
Box Width (cm)	35cm
Box Height (cm)	25cm
Box Depth (cm)	94cm
Total Power (kW)	4 or 3
Ingress Protection	IP65
Warranty	2 Years
Lamp Warranty	Not Covered (Find out more about Lamp Maintenance)
GTIN	5060405135429
